Specific Blood Poison

Specific Blood Poison usually begins with a tiny sore which is the only outward evidence of its presence, but down in the blood the treacherous poison is at work and soon its chain of symptoms begin to crop out. The mouth and throat ulcerate, sores and ulcers appear on the body and the glands in the groin swell. Mineral medicines cannot cure Specific Blood Poison; they only shut the disease up in the system to break out afresh later. S. S. S. goes into the circulation and removes the last trace of the infectious virus, tones up the stomach, bowels, kidneys and all portions of the system, and thus makes a perfect and lasting cure. S. S. S. is made of roots, herbs and barks and does not contain a particle of mineral or other harmful drug. Thousands have cured themselves of Specific Blood Poison by the use of S. S. S. It will cure you if you will give it a trial. Special Home Treatment Book and any medical advice free to all who write.

White Villages Are Wiped Out by Typhoon—Four hundred Fishermen Perish in Hurricane.
Tokyo, Japan, Sept. 27.—The loss of life and property in the grading of human beings, the mental and physical conditions of the individual should be kept in equilibrium, professor Thomas N. Rob. of Harvard Medical school, not only argued that the labor and work of children should be adapted to the individual child, but he presented a complete system by which the stage of development of children might be determined practically automatically.

Slit beaver seems to be in high favor for the coming season. Those imported show a nap much longer and silkier than former styles.

The one sketched is a rich cream white, and the wide rolling brim is left open. All around a black velvet ribbon is caught at intervals with white dahlias, made of velvet and tinted like the real flowers. The hat and flowers exactly match in coloring.
